

Our newest Digital Rework Microscope with operator wellness in mind. One size does not fit all when it comes to comfort. The digital scope features true flexibility like no other.

- 16" working distance
- 12.5-inch 1080P touch screen display
- Presets of true zoom mean no guessing of magnification levels.
- Reticle overlay assisting with measurement with one-time calibration, stable throughout magnification range.
- File Name Entry for saving snapshots with touchscreen keyboard or optional USB mouse keyboard or serial barcode scanner.

Reticle

Laser pointer
